

The power to translate is now inside Oracle UCM!

Now it's easy to instantly translate your content directly from Oracle UCM using the new **Lingotek-Inside** integration. Your users will be able to access translated content, nominate content for professional translation, and even offer to translate content themselves, all without leaving your site!

Lingotek-Inside integration:

- Machine Translation technology instantly translates any page on your site.
- Lingotek's Workbench allows bi-lingual users to volunteer to translate content for you easily and instantly. Even non-professional translators can create quality translations using Lingotek's innovative suggestion and automation technologies.
- Users can nominate any page for a professional translation. You'll save money by only translating the content that's most important.
- All these powerful features are integrated directly into Oracle UCM. No separate login. No installation burden. No headaches.

The power to translate is now inside Oracle:

Now it's easy to instantly translate your content directly from Oracle UCM using the new Lingotek-Inside integration. Your users will be able to access translated content, nominate content for professional translation, and even offer to translate content themselves, all without leaving your site!

Not all content is created equal. Use the right tool for the job.

Low Priority Content

Examples: Comments, selected Forum and Blog posts

Machine Translation technology instantly translates any page on your site.

Medium Priority Content

Examples: Forums, Blogs, Wikis

Lingotek's Workbench allows bi-lingual users to volunteer to translate content for you easily and instantly. Even non-professional translators can create quality translations using Lingotek's innovative suggestion and automation technologies.

High Priority Content

Examples: Product info, Support info

Users can nominate any page for a professional translation. You'll save money by only paying to translate the content that's most important.

All these powerful features are integrated directly into Oracle UCM. No separate login. No installation burden. No headaches.
